NATIONAL EDUCATION ASSOCIATION
OF THE UNITED STATES
1201 Sixteenth Street, Northwest, Washington, D. C.
1938

INDEX TO VOLUME XVI

Accidents: serious consequences of, 240, 241, 245.
Accountancy, Public: appointment and qualifications of members of state boards of, 188; educational and experience requirements for admission to field of, 189; finances of state boards of, 188; interstate reciprocity in granting licenses in the field of, 189; legal provision for the revocation of licenses and expulsion from the profession of, 214–15, 222–23; personal qualifications required for certification in, 188–89; sampling of cases brought to trial against offenders in the profession of, 225–28.
Accrediting associations. *See* Articulation between high school and college.
Admission procedures of colleges: evaluation of, 83–84; factors reported to be responsible for success and failure in, 84; special plans used by individual colleges in, 81–82; types of evidence relating to the ability of students collected for use in, 78–81; uniform application blanks improve, 81. *See also* College entrance requirements.
Adult education: extension of work in, 163–64; need and demand for better, 42–43.
American Association for Adult Education: quoted, 42.
American Association of Teachers Colleges. *See* Teacher-training: accreditment of institutions for.
American Bar Association: referred to, 194, 195, 196.
American Council on Education: referred to, 105.
American Institute of Accountants: purpose of, 189–90.
American Medical Association: referred to, 203, 204.
American Nurses' Association: referred to, 199.
Anderson, C. J.: quoted, 148.
Arant, H. W.: quoted, 217.
Architecture: appointment and qualifications of members of state boards in the field of, 190; compensation of state board members of, 190–91; examinations for registration in the field of, 191; legal provision for revocation of license and expulsion from the profession of, 215–16, 222–23; qualifications for admission to practice in the field of, 191–92; registration of non-residents to practice the profession of, 192–93; sampling of cases brought to trial against offenders in the profession of, 225–28.
Articulation between high school and college: accrediting associations and other agencies cooperating in, 107–108; high schools, colleges, and universities cooperate in, 108–10; objectives emphasized by higher institutions in promoting, 110; special procedures used to improve, 108–10; summary of current practices in, 111–13. *See also* Guidance and supervision of college freshmen; Guidance, Precollege.
Association of College Representatives: quoted, 75–76.
Attendance of school children: weighted aggregate (1914, 1930, and 1936), 177–78. *See also* Elementary and secondary schools.
Automobile associations and clubs. *See* Safety instruction: agencies providing effective help in; agencies which should provide greatest help in.

Beard, Harriet E.: quoted, 251, 255.
Bibliography: 57, 59, 114–16, 123, 179, 231–35, 277–78, 279–94.
Birth-rates. *See* Population: national birth-rates.
Board of Examiners in the Basic Sciences: purpose of, 201. *See also* Medicine.
Bradway, J. S.: quoted, 194.
Bragdon, Helen D.: quoted, 87.
Bureau of Legal Medicine and Legislation of the American Medical Association: referred to, 201.
Burgess, W. Randolph: quoted, 145.

Carey, John L.: quoted, 189.
Carnegie Foundation for the Advancement of Teaching: quoted, 75.
Certification of teachers: training prerequisites for the inexperienced, 161. *See also* Teaching.
Chism, Leslie L.: quoted, 46.
Classroom teacher. *See* Safety instruction: members of school personnel in charge of.
College and high-school articulation. *See* Articulation between high school and college.
College entrance requirements: comparison of the 1930–31 and 1936–37 unit trend in, 78; factors reported as determining success and failure in the matter of, 84; number and types of secondary-school units required in 1930–31 and 1936–37 to meet, 77–78. *See also* Admission procedures of colleges.
College guidance. *See* Guidance and supervision of college freshmen; Orientation period in colleges.
College records and reports. *See* Guidance and supervision of college freshmen.
Colleges and universities: population trends in relation to enrolments of, 35, 37.
Construction of school buildings. *See* Expenditures for public schools; School dollar, Purchasing power of.
Course-of-study bulletins, Safety education: as supplied by local boards of education, 257; lack of, 265.
Curriculum, Enrichment and enlargement of. *See* Educational standards.
Curriculum for college freshmen: advice given relating to optional courses in the, 89–90; amount of work permitted in the, 92–93; an appraisal of the, 93–94; common freshman year program of study, 91; defects of, 91; extent to which courses are required in the, 89; factors believed to be responsible for success and failure in providing a satisfactory, 94; improvement of, 91; orientation courses, 90; provision for individual needs, 91–93; types of remedial instruction available in, 90–91.

Death-rates. *See* Population: national death-rates.
Dewey, John: quoted, 158.
Douglas, Paul H.: quoted, 147, 173.
Dramatization of safety lessons. *See* Safety instruction: current methods used by city school teachers in; teacher evaluation of methods of.
Duffus, Robert L.: quoted, 110.
DuShane, Donald: foreword by, 184.

Education for safety: *See* Safety instruction.
Education, Higher: the quest for, 65; situations facing the entering students in, 65; student difficulties and guidance needs, 66–67.
Educational Records Bureau: referred to, 105.
Educational standards: changes in instructional methods and materials make for higher, 161–62; enrichment and enlargement of the curriculum as it relates to better, 158–60; extension of the school organization, 163–64; new teacher education requirements raise, 160–61; school buildings and equipment in relation to, 162–63; standard of living in relation to, 158.
Eldredge, Adda: quoted, 199.
Elementary and secondary schools: attendance in, 156–57, 178; curriculum of the, 158–60; enrolment in night, 163; increased school expenditures affected by attendance in, 157; percent of national income spent for, 138; percent of pupils in public secondary schools enrolled in various subjects of instruction (1915 and 1928), 159; population trends affect enrolments in, 33–35, 36.
Elementary-school teachers: agencies providing effective help in safety teaching as stated by, 258, 259, 263; agencies which should offer aid in safety teaching according to, 262–63; current safety teaching technics indicated by, 249–51; extent of safety instruction in city schools as reported by, 245–46; ideal place in curriculum for safety according to, 260, 261; personnel supervising the safety program as described by, 248; present place of safety in the curriculum as reported by, 246; safety teaching technics evaluated by, 252, 253; urgent needs in safety teaching as reported by, 261–62.
Elswood, E. S.: quoted, 206.
Employment: labor supply and, 30–31; proportion in non-remunerative, 22–23; proportion of the population in gainful, 19, 20; proportion without, 23; regional distribution of occupational groups, 20–22.
Entrance requirements, College. *See* College entrance requirements.
Expenditures for public schools: amount per capita of, 132–33, 138; amount per enrolled pupil of, 132–33, 138; average weekly salary of teachers compared to that of unskilled labor (1900–1940), 146; change in public school attendance (1930–1936) and, 166, 167; change in quality and scope of school program (1930–1936) affects, 167; comparison of downward trends (1875–79 and 1930–34) of, 131, 135; comparison of 1914 and 1930 itemized, 140–42; decrease in the value of the school dollar results in rise in, 143–44, 167; estimated causes of increase in 1914 to 1930, 164; increased school attendance as it relates to, 156–57; index of cost of 1930 school program as it relates to actual (1930, 1934, and 1936), 165; long-time trend in, 131, 132–34; national income in relation to, 136–38, 132–33; relation of elementary-school enrolments to, 155; relation of high-school enrolments to, 156; relation of school enrolment to, 136, 132–33, 155; relationship of school enrolments, 1930–1936, and, 166, 167; trend in population as related to, 135–36, 132–33. *See also* Government expenditures, Federal, state, and local; National income; School dollar, Purchasing power of.

Financial aid for college students. *See* Guidance and supervision of college freshmen.
Fowlkes, John Guy: quoted, 148.
Freshman week programs. *See* Orientation period in colleges.

Givens, Willard E.: forewords by, 64, 128, 240.
Government expenditures, Federal, state, and local: school expenditures in relation to, 137–39.
Guidance and supervision of college freshmen: adequacy of the college systems of records and reports in relation to, 105; adequacy of the practices of 423 colleges in,

100; factors attributed to the success or failure of college systems of reports and records in relation to, 106; factors regarded as responsible for success and failure in, 101; faculty advisers or personnel officers assigned for, 95; financial aid and student employment, 99–100; improvement of record forms and measuring instruments for, 105; living quarters in relation to, 96–98; maintenance of records for use in, 102–103; provision for health services, 96–97; provision made for, 95–96; restrictions relating to residence in private homes, and in fraternity and sorority houses, 98. *See also* Guidance, Precollege: use of high-school reports in; value and use of follow-up records of high-school graduates in providing for.

Guidance for college entrance. *See* Guidance, Precollege.

Guidance, Precollege: cooperation with parents in, 72; grade level marking beginning of, 71; methods followed in appointing faculty advisers for, 73; methods used by colleges for, 74–75; official advice pertaining to, 70; personnel responsible for, 71, 72–73; previews of college life given in, 74; procedure of, 71; selection of college or university and types of work figure in, 73–74; types of information used in, 71–72; unethical practices by colleges in, 75–76; use of high-school reports in, 102; value and use of follow-up records of high-school graduates in providing for, 103–105.

Health standards. *See* Educational standards: enrichment and enlargement of the curriculum as it relates to better; Guidance and supervision of college freshmen: Population.

High-school and college articulation. *See* Articulation between high school and college.

High-school guidance. *See* Guidance, Precollege.
